Refshuffle: security audit report

Created on 27 February 2025 @ 05:19

Refshuffle wants to build trust by giving you insight in how it builds software in a secure manner. The reports details how software development at Refshuffle is being monitored and safeguarded from the developer's computer all the way to the infrastructure used for delivery.

This security report has been generated by Aikido Security based on real-time monitoring of Refshuffle code and infrastructure.

Issues overview report

This report shows a complete list of all issues found by Aikido for specific resources
