-----
\033[0;31m4983 errors\033[0m found
-----
```

1981 other issues found.

You can display them with \033[30;48;5;195m--show-info=true\033[0m

Psalm can automatically fix 954 of these issues.

Run Psalm again with

```
\033[30;48;5;195m--alter --issues=InvalidFalsableReturnType,UnusedVariable,MissingReturnType,InvalidReturnType,MismatchingDocblockReturnType,MissingOverrideAttribute,InvalidNullableReturnType,LessSpecificReturnType,MismatchingDocblockParamType,ClassMustBeFinal,UnusedMethod,PossiblyUnusedMethod,MissingParamType --dry-run\033[0m
to see what it can fix.
-----
```

Checks took 2.19 seconds and used 101.925MB of memory

Psalm was able to infer types for 76.5003% of the codebase
